5. Risk disclosure

Please read carefully before signing

1. Educational and analytical tool only
R2A provides a TradingView charting indicator and related education for analytical purposes only. Nothing R2A publishes, shows or says is investment advice, portfolio management, a recommendation, or a solicitation to buy or sell any security, derivative, currency, commodity or digital asset. R2A is not registered as an adviser or dealer with any securities regulator in Canada or elsewhere. For advice about your own circumstances, consult a registered professional.

2. Substantial risk of loss
Trading — especially leveraged products such as CFDs, futures, options, margin forex and crypto — carries a substantial risk of loss, including losing more than you deposit. Past performance, backtests, replays and chart examples do not predict future results. No return or result is promised, guaranteed or implied.

3. Your decisions, your responsibility
Every trade in your own account is placed at your own discretion and risk. You are responsible for your own analysis, position sizing, risk management and any taxes. R2A and its people accept no liability for your trading gains or losses. The indicator does not place trades.

4. Personal licence — no sharing
Access is granted to one TradingView account for your personal use. You must not copy, reverse-engineer, record, broadcast, resell or share the indicator, its outputs as a service, or any R2A materials. Breach ends access without a refund.

5. Fees and refunds
R2A Premium Indicator is sold as one year of access on one TradingView account — US$1,199 — including updates released during that year. It does not renew automatically. A full refund is available within 7 days of purchase (see the Refund Policy on the website); a refund removes access. Submitting this application does not charge you anything.

6. Declaration

I, the applicant named in Section 1, declare that:

a) The information I have given in this application is true, complete and up to date.
b) I have read and understood the risk disclosure above and agree to it.
c) I understand trading carries significant risk, and I will only trade money I can afford to lose.
d) No one at R2A has promised me any profit, return or result to persuade me to apply or buy.
e) I will protect R2A's proprietary tools and will not share access or materials with anyone.
